Projects

Gamestream

Website

I developed a Gamestream web application during my internship. The platform allows users to explore games and purchase their source code. I used HTML, CSS, JS, React.js, Node.js and MYSQL for creating this website.

Fitness Chart

Website

Our health-focused website offers a simple yet powerful BMI Calculator to help users understand their body weight category. Based on the results, it provides a personalized diet chart to guide healthy eating habits. The platform promotes wellness, fitness, and balanced living through accurate data and tailored recommendations.
